<i>Ex:</i>	Unloading of containers with escalator components
<i>Port:</i>	Kotka, Finland

We hereby declare to have attended the supervision of the unloading of 2 containers with the equipment.

Containers arrived without any damages. Containers were sealed with the container seals. The opening of the containers was produced in the presence of representatives of the Incolab Services. All components inside of the container were well located and fixed.

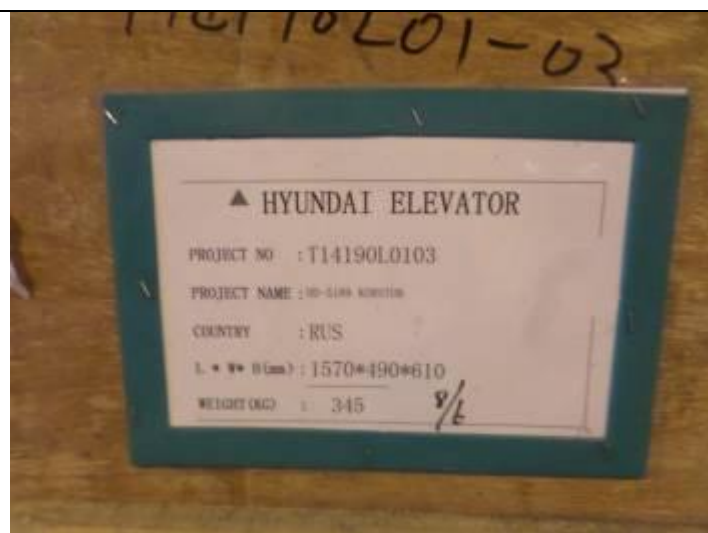

All the boxes with components were mixed between both containers and packing lists.

The quantities of boxes with the components were corresponded to the designated quantity in two packing lists.

Note: We would like to inform you that during the unloading container number CCLU 74894045 G1 was found unknown box with the components:
